# TOMORROW WAS YESTERDAY

Think about your working day. You travel to the office in a car with 1000% more computer processing power than the first space mission, or on a train that drives itself to your destination. Your morning coffee is made by machine, your daily news is selected for you by algorithm, and your main source of contact with the outside world is the six-inch slab of circuitry in your pocket. Some of your co-workers were born in the year 2000.

Can you see it yet? The reality of your life is simple. You already live in the future.

Almost everything you interact with on the way to work has been developed with a clear, distinct purpose: **to make your life**

**easier, your efforts more efficient, and to help you connect with others.** So, when you get to your desk, why isn't your workspace keeping up with the pace of your life?

**Introducing LOGIClink:** a connectivity hub for the human-centered workspace, designed to provide both companies and employees maximum flexibility at work. Combining visionary features for facility managers – including interfaces that provide real-time desk occupancy data and form the basis for an interactive desk booking system – with a new generation of fully interactive height-adjustable table systems, LOGIClink is the first act in the revolution of intelligent office design.

## LOGIClink Personal

# STAND AND DELIVER

We all have different reasons for going to the office each morning. Yet for 40 hours each week, millions of us sit in workspaces dominated by three main components: Desk, Chair, Computer.

What does it do to us?

According to a major European study, some 34% of workers feel their work environment negatively affects their health<sup>1</sup>. But there is still hope: at LOGICDATA, we have the tools to challenge the growing issue of wellbeing in the workplace.

Whether it's through **LOGIClink Personal Standard's** extensive feature set for flexible workspaces or **LOGIClink Personal Lite's** simplified connectivity system, we put you back in control of your wellbeing at work, giving you the office your body deserves.

It's time for change.

It's time for **LOGIClink Personal**.

## HEALTH

### **Stand up and be counted**

Both LOGIClink Personal Standard and LOGIClink Personal Lite give you the tools to improve your health at work by allowing you to easily change your position: relieving muscle and joint pressure. LOGICDATA's high-performance mechanical and electronic components – built into market-leading table systems – mean that smoothness, quietness, and safety are assured.

## BEACH TOWELING\*

### **See it. Want it. Book it.**

LOGIClink is carefully designed to work seamlessly in coworking spaces. Reserve a desk in your favorite spot, move closer to your co-workers, or even find a quiet spot away from unnecessary distractions.

\* Only with LOGIClink Personal Standard

## CONTROL VIA APPS

### **Flexibility at your Fingertips**

LOGIClink – alongside the Motion@Work App for mobile and WORK & MOVE for PC – helps you to help yourself by providing easy-to-understand real time updates about your sitting and standing habits at work, notifying you when it's time to change position, and helping you create a sit/stand program exactly tailored to your needs and desires.

Read more about the App on page 11.

**LOGIClink Corporate**

# STRIKING THE BALANCE

With unique, individual employees joining the modern workforce every day, creating high-quality working time for your staff has never been so important. However, the cold reality of the business world is never far away. A lack of office space is a massive concern for rapidly growing companies, especially in major tech hub cities, where prices for rents and leases are raging out of control.

We want to ask you: why can't you have it all? An office space that is not just a comfortable, healthy working environment, but also a game-changer that will keep your company at the forefront of innovation, efficiency, and productivity.

The answer is infinite flexibility. The answer is personalization without compromise.

The answer is **LOGIClink Corporate**.

# DESK BOOKING

## Your place or mine?

Traditionally, offices have operated on a 1:1 workstation ratio – one desk per employee. However, with office costs now twice as high as in 2005, this is no longer a cost-effective solution<sup>2</sup>. Part of the problem is desk occupancy: in the US and Europe, only 35-50% of desks are occupied between 8 a.m. and 5 p.m., resulting in huge amounts of office space being wasted throughout the day<sup>3</sup>.

Even a conservative reduction to 0.8 desks per employee could trigger huge savings<sup>4</sup>. For this reason, thousands of companies

are turning to co-working spaces as an efficient alternative to the traditional office: instead of cramming extra desks into limited space, co-working is a fluid system that reduces waste by allowing employees to take any vacant desk, any time.

In co-working offices, LOGIClink's interfaces allow workers to simply check into the nearest free place – via Bluetooth, USB, or NFC – then get down to business: no need for dedicated workstations, no need for empty desks.

# OCCUPANCY MONITORING

## Filling the void.

LOGIClink Corporate can help facility managers monitor desk occupancy in real time, creating a culture of zero waste. Detailed historical data on desk occupancy is stored electronically, providing you with the tools you need to streamline your space management concepts.

- 4 Senior, 5 reasons why the time for Agile workplace is now, 3/2017

## HEALTH

### **Stand up for your health.**

Over time, excessive sitting at the workstation can lead to chronic health problems such as heart disease, diabetes, and even some cancers. This is a huge cause for concern for office employees, but it creates serious issues for companies too. Simply put, bad health costs money: US companies lose

billions annually in compensation claims for repetitive strain injuries alone. Using LOGICDATA's patented technologies for height-adjustable workstations, your employees can make proactive choices for their health by maintaining a healthy sit/stand balance throughout the day.

## CUSTOMIZATION & COMPATIBILITY

### **We're in the business of flexibility.**

LOGIClink Corporate can be integrated into existing systems or used as a standalone solution. Thanks to this flexibility, companies of all sizes can vastly increase efficiency and create a flexible desk system that works for everyone.

## MOTION@work App

# THE PRACTICAL APPLICATION

In this hyper-connected age – 95% of new electronic designs will incorporate the Internet of Things by the year 2020 – we know that our two decades’ experience (r)evolutionizing adjustable furniture will mean nothing if we can’t meet the pace of your demands.

Compatible with both LOGIClink Personal and LOGIClink Corporate, the crisp, clean, and easy-to-use MOTION@work App means that control over your working position has never been easier. The person that knows best about your body’s needs is you: that’s why we put you in control. **Drive us to drive you.**

# WHITE LABELING

**For the personal touch.**

The MOTION@work app can be completely white-labelled, providing your company with the personal touch without the cost of developing an app in-house.

# STATISTICS

**Knowledge is power.**

MOTION@work provides real-time statistics on your sitting and standing positions, allowing you to adjust the height of your workstation when the time is right to move. You'll get to-the-minute information about how long you spend sitting or standing at your desk, allowing you to check your progress and adjust your routine.

# REMINDER FUNCTIONS

**Never miss a beat.**

MOTION@work can help you set targets for your sit/stand ratio throughout the working day. The app will even send you handy reminders when a change in position is scheduled. You can individually set the frequency of these reminders, or alternatively turn them off completely.

# PERSONALIZATION

**Make your desk your own.**

Move your workstation to the desired height via the app, making the adjustments that will dramatically improve your posture and comfort. The app will also provide helpful tips and advice on achieving a health-optimized routine at work, tailored to your needs and preferences.

# MEMORY POSITIONS

**We won't forget you.**

Save your perfect positions to the App as Memory Positions. Then, any time you check into a LOGIClink-connected workstation, just make yourself at home with a simple tap.

# EVERYTHING IN ONE PLACE

Adjustable workstations are designed to be convenient. So why not keep control over your working environment at the heart of your office life: on your laptop or desktop PC?

We've teamed up with BakkerElkhuizen to bring you a SitStandCOACH, part of the world-renowned WORK & MOVE Software. Compatible with LOGIClink via USB, this powerful desktop application is designed to help you get the most out of your height-

adjustable workstation, finding your perfect positions and helping you stay on the move.

You can even try before you buy: WORK & MOVE comes **FREE** for a whole year with every LOGIClink. In 12 months, you'll wonder how you ever lived without it...

Go to [www.workandmove.com/logicdata](http://www.workandmove.com/logicdata) and get your **FREE** 1 year WORK & MOVE license.

## PERSONALIZATION

### **More power to you.**

You can use WORK & MOVE to create the perfect daily routine for you, designed to improve your workplace ergonomics while fitting seamlessly into your style of work.

## MOTIVATION

### **Get fired up.**

Throughout the working day, WORK & MOVE's helpful reminder function reminds you when it's time to get up and go, while its personalized reporting feature encourages you to improve your habits over time. With the right motivation, you'll reach new heights at work.

## CONCENTRATION

### **Stay cool. Stay focused.**

SitStandCOACH springs into action at the times of day it knows your concentration might be waning. By keeping you sharp and on your toes, this intuitive software will bring noticeable benefits to productivity.

## COMPATIBILITY

### **Join the system.**

SitStandCOACH is fully compatible with LOGIClink, allowing you to experience the full range of impressive features your LOGICDATA-powered adjustable workstation can provide.

## Design & Awards

# A BEAUTIFUL FUTURE

If we are going to live in the future, then it should be a beautiful one.

The LOGICDATA formula is renowned worldwide for its burning commitment to magnificence in design. With LOGIClink, we combine the immense practical advantages of a revolutionary product for the modern workspace with an outstanding design that will complement any office environment.

This isn't just our opinion. LOGIClink won Interior Design Media's HiP Award for Design in Technology at NeoCon 2016. Its sleek and subtle design allows the hardware to be placed discreetly underneath the desk, while the responsive ergonomic buttons can be used to adjust your desk's height without the need for an external device. At LOGICDATA, we don't just (r)evolutionize adjustable furniture: we do it with style.

# NUTS AND BOLTS

## PERSONAL Standard & Lite

- Target Group: End user at workstation
- Wired Connectivity: USB (data only), Control Box connection (data and power)
- Wireless Connectivity: Active NFC ISO/IEC 14443\*  
Bluetooth 4.1
- Other Interfaces: Occupancy detection (PIR based)\*,  
Hand Control buttons (Up/ Down), LEDs\*
- Compatibility: All LOGICDATA Control Boxes,  
DYNAMIC MOTION system, Fixed workstations

*\*Only with LOGIClink Personal Standard*

## CORPORATE

- Target group: Facility Manager
- Wired Connectivity: USB (data only), Control Box connection (data and power)
- Wireless Connectivity: Active NFC ISO/IEC 14443  
Bluetooth 4.1  
WiFi 2.4GHz IEEE 802.11 b/g/n  
(WPA/ WPA2, WEP/TKIP/AES)
- Other Interfaces: Occupancy detection (PIR based),  
Hand Control buttons (Up/ Down), LEDs
- Compatibility: All LOGICDATA Control Boxes,  
DYNAMIC MOTION system, Fixed workstations

# AMPS AND VOLTS

<b>Supply voltage (retrofit-option)</b>	5 VDC +/- 10 %
<b>Max. input current (retrofit-option)</b>	500 mA
<b>Service life</b>	10,000 Button press cycles / 10 years
<b>Dimensions (L x W x H)</b>	137.3 x 108.0 x 23.1 mm
