SILVER**standard+**
The new standard for adjustables.

DESCRIPTION

The SILVERstandard Adjustable Base unifies innovation, functionality and design in one single system. The motion-giving core technology is entirely integrated into the side rails and was created to be extraordinarily easy assembled through a modularity-based model. Disassembly is just as simple, making it a convenient piece of furniture to transport when moving rooms or houses. The Frame Control allows for state-of-the-art up and down movement of the head and foot sections, including the most efficient wall keeping mechanism on the market.
