The Quick Start Guide is not a substitute for the product documentation. For your own safety, read the complete product documentation before assembling the Bed Frame and putting it into operation.

Ensure holes are aligned to tool assembly support.

Look at labels on frame elements.

Ensure all plugs are oriented correctly.

Be careful not to trip over cables.

Before using your SILVER standard for the first time, please:

- Place the mattress on the Bed Frame
- Plug the Power Converter into the mains
- Pair your Remote Control with the Bed Frame
- Relax!

Technical problems? Contact LOGICDATA support:
