Sydney

ADJUSTABLE BED
FRAME

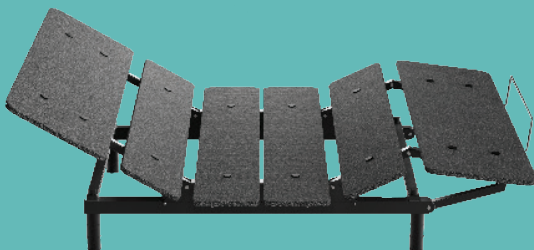

COSMO
Sydney

Pure and Simple.

The COSMO Sydney is inspired by the wide beaches, unique architecture, and endless sunshine of Australia's vibrant, up-and-coming jewel. Developed with compact, inner-city dwellings in mind, the frame was built to provide singles and young couples with a space to work, to play, and to live.

The COSMO Sydney is a sanctuary for young, urban households with an eye for stunning ergonomic design. Although every version of the Sydney provides smooth, up/down motion and programmable memory positions, the Comfort variant gives users that something extra: USB ports, underbed lighting and Bluetooth/app connectivity. In either variant, it's an ideal furnishing that saves cost, space, and fuss.

The minimalistic COSMO Sydney not only provides the flexibility that users desire, it does so via a low-profile design that means moving the bed – from room to room or to whole new living spaces – incredibly simple. In fact, a single person can assemble the entire bed frame in just a few minutes.

COSMO SYDNEY

The market's
smallest
packaging. One
bed. One box. No
oversize charges.

HEAD UP AND FOOT UP

Smooth up and down movement of the head and foot sections.
